PARTNER PROPOSAL

The American College of Cardiology is accepting applications from companies to participate in the ACC.23/WCC Future Hub.

Attendees come to American College of Cardiology's (ACC) Annual Scientific Session & Expo to be educated – and that desire for education extends into the exhibit hall. They have expressed to us that they prefer an educational, rather than sales, experience with exhibiting companies. In survey data, attendees have indicated that they would like to have the opportunity for more hands-on experience and training, and prefer exhibit booths that offer demonstrations and presentations.

In response to that thirst for knowledge and desire for interactive, hands-on, cutting-edge education, the ACC is pleased to present for the fourth year, the Future Hub – a multi-vendor, interactive, educational exhibit. Participation in the Future Hub is intended to

position your company as a leader in cardiovascular innovation and provides a new level of attendee engagement in the Expo.

The future of cardiovascular healthcare starts now! The goal of the Future Hub is to inform, educate, inspire and delight attendees by exposing them to the latest innovations in digital health, medical devices and big data. Attendees will 'see the future' of cardiovascular healthcare via:

- **TED-style talks**
- **Small panel discussions/debates**
- **Exhibitor demonstrations/kiosks with individualized hands-on opportunities**
- **Entrepreneurial pitch competitions**

Also returning for its third year, the ACC will host the very popular Innovation Challenge! Entrepreneurs and innovators will pitch their ideas for products and services in two categories.

INNOVATION & TECHNOLOGY CATEGORIES

- Digital health
- Medical devices
- Precision health
- Artificial intelligence
- Health care analytics
- Educational technology
- Disease prevention
- Big data
- Telehealth
- Virtual care
- Care delivery
- AR & VR
